

Nykaa Beauty Analytics Dashboard | Power BI

Project Overview

This project is an interactive **Power BI Dashboard** built using a beauty products sales dataset inspired by **Nykaa**. The objective was to transform raw sales data into meaningful business insights while recreating the premium look and feel of the Nykaa brand.

Being someone who enjoys exploring skincare, haircare, and beauty products, I always wanted to create a dashboard inspired by Nykaa. This project allowed me to combine my passion for data analytics with a brand I genuinely admire.

Objectives

- Analyze overall sales performance.
 - Track revenue, profit, and profit margin.
 - Identify top-performing brands and products.
 - Compare revenue across product categories.
 - Analyze customer purchasing trends.
 - Build an interactive and business-friendly dashboard.
-

Dashboard KPIs

KPI	Value
💰 Total Revenue	₹28M
📈 Total Profit	₹7M
📦 Quantity Sold	27K
🛒 Products	5K
🏷️ Brands	9
📊 Profit Margin	25.36%
★ Average Rating	4.0

Dashboard Pages

Home Page

- Interactive landing page
 - Dashboard navigation
